

Raising hygiene standards with **Initial hygiene Malaysia** to protect employees' wellbeing, increase staff morale and productivity

Malaysia Debt Ventures (MDV) Berhad is the nation's leading technology financier. With strong awareness in workplace hygiene and importance of minimising cross contamination risk, MDV provides complete hygiene amenities in the office to support healthier workforce. Anti-bacterial hand soaps and hand sanitisers are provided to improve hand hygiene to reduce the spread of germs. For added protection, sanitising wipes are also available for employees to keep office equipment clean and hygienic too. As for air hygiene, in addition to air fresheners, there is also air purifier to improve the air quality and leveraging on Premium Scenting solution at the entrance as well as the main boardroom to create a welcoming and engaging ambiance for employees or visitors.

*"I was really amazed and impressed by the **hygiene assessment** that a Hygiene Consultant from Initial Hygiene Malaysia has conducted in this office years ago. Although we have routine cleaning in place, high microorganisms count shown at the common areas was an eye-opener. MDV management will continue to **advocate the importance of good hygiene habits** among our employees for their well-being, thus enabling them to do what they do best to our customers."*

Tunku Zabedah Tunku Ariffin, Senior Executive Finance & Administration Department.
